PoA II.11	<p>5.1 List laws, regulations or administrative procedures to exercise effective control over the export, import, transit or retransfer of SALW.</p> <p>Swiss law is applicable to the import, export and transit of military material on the basis of the Customs Union Treaty (Swiss Military Material Act and Ordinance). The Sanctions Act allows to limit or inhibit trade with foreign States in order to fulfil international obligations by which Liechtenstein is bound. This law provides the basis for the implementation by Government ordinance of all sanctions and embargoes adopted by the United Nations Security Council as well as the autonomous sanctions of the European Union.</p> <p>On the basis of the Customs Union Treaty, Swiss law is applicable for import, export and transit operations (Swiss Weapons Act and Ordinance). Commercial transactions involving weapons require a weapons trading permit. Weapons trading permits are issued by the Liechtenstein Government. The trader is required to maintain a list covering his sales of handguns and automatic or semi-automatic weapons.</p> <p>This list must indicate the date of the sale, the exact personal details of the purchaser, and the type and manufacturer's serial number of the weapon. The weapon acquisition permit must also be attached to this list. Record books and copies of weapons acquisition permits are to be kept for a period of 10 years and then handed over to the authorities (police). Approval for commercial imports, exports and transit operations involving weapons and ammunition is given by the Swiss Central Weapons Office upon receipt of the appropriate application form.</p> <p>Authorization for non-commercial imports, exports and transit operations is given by the Swiss customs authorities and the police. Oversight authority over sales in Liechtenstein is the Liechtenstein National Police.</p>

PoA II.12	5.5 Does your country verify or seek to authenticate EUCs or other types of end-user documentation provided?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
-----------	--	-------------------------------------	--------------------------

5.5.1 Details:

Export of small arms and light weapons (SALW) from Liechtenstein to a state outside the Swiss-Liechtenstein customs area are subject to Swiss regimentation and certification procedures. Liechtenstein does not issue enduser certificates (EUC). For non-commercial exports of SALW into a Schengen state, an accompanying document issued by the Swiss Federal Office of Police (Fedpol) is necessary (Art. 22b Swiss Weapons Act and Art.

45 Swiss Weapons Ordinance). The non-commercial export of SALW into non-Schengen-states and their commercial export in general are subject to authorisation by the State Secretariat for Economic Affairs (SECO). According to the Swiss Military Material Act an EUC ("Nichtwiederausfuhr-Erklärung") is necessary for an authorisation by the SECO (Art. 18 Military Material Act). Liechtenstein companies that commercially export SALW in states outside the Swiss-Liechtenstein Customs Area have to present a EUC for War Material to the Export Control Authorities

of the Swiss Confederation. However, Liechtenstein's annual SALW reports show that no commercial exports of SALW have been carried out in the past. Due to the foregoing explanations Liechtenstein is not able to provide a sample format of an end-user certificate. Liechtenstein follows the same procedure as Switzerland when authenticating EUCs: Before granting an authorization, the respective non-re-export declaration will be assessed in a formal manner.

If there is an indication for irregularities, further measures will be taken (incl. verification). The verification of information in EUCs is not regulated by law but subject to an internal directive on this matter. Switzerland requests confirmations stating that the material arrived at the intended destination on a case-by-case basis. In important cases SECO stipulates the right to conduct post-shipment verification (PSV) checks to ensure that the war material arrived at the intended destination and is used for the purposes stated in the export licence.

The question of whether or not to launch a verification procedure is decided on a case-by-case basis. Switzerland established the Central Office for Combating the Illegal Trade in War Material within the Federal Department of Defense, Civil Protection and Sport (DDPS). This office is responsible in particular for checking the arrival of deliveries at the designated and approved destination. Checks include that the end-user is requested

by Switzerland to confirm in writing that the exported weapons arrived as planned.

5.6 Does your country have measures in place aimed at preventing the forgery and misuse of EUCs or other types of end-user documentation?

5.6.1 Details:

The signatures are verified through diplomatic channel via the Swiss Embassy in the country of destination.

5.7 When exporting, does your country require a Delivery Verification Certificate (DVC) to confirm that SALW have reached their intended end-user or intended importer in the importing State?

5.8 After exporting, does your country verify or seek to authenticate DVCs provided?

5.8.1 Details:

The Central Office for Combating the Illegal Trade in War Material within the Federal Department of Defense, Civil Protection and Sport (DDPS) controls systematically if the exported SALW has reached its planned and approved destination (Article 20 Swiss WMO).

5.9 When importing, does your country grant the right to the exporting State to conduct a physical check at the point of delivery?
