Gender considerations			
[RevCon3 outcome II.B.2.79]	10.2. Does your country collect disaggregated data on gender and SALW?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	10.2.1 Details: When reporting on performance of activities implemented during the quarter, half year or annual, we disaggregate data on men, women, youths and disabled persons who participate in workshops to educate and raise awareness on the dangers of illegal weapons. Also reports are provided on number of women participating on National Commissions on small arms etc.		

Additional information – Key challenges and opportunities

ITI 31

10.3. Any further comments on PoA and ITI, including key challenges and opportunities relating to the implementation of PoA and ITI, and national laws, regulations and administrative procedures?

A number of challenges include, porous border, unstable neighbors, weak legislation, lack of harmonised laws across the region, lack of regional Disarmament policy, inadequate resources, weak structures to monitor the illicit flow of firearms .

a) Details

However, in terms of opportunities, the Government of Uganda is wholly committed in the implementation of the UNPoA and ITI by ensuring that all Firearms in state and non state owned are marked for easy tracing. In addition to marking there are recent efforts to develop a forensic database for all firearms in the country to ease on identification of firearms involved in crime. The country is in advance stages to review the firearms law and make it punitive for those who misuse and abuse firearms

b) Please upload/attach additional files (e.g. views on the implementation of the PoA and ITI, a national action plan, project proposals, a list of projects implemented and financial contributions provided):
